CROSSOVER

INSTRUCTIONS & CARE MANUAL

WWW.OUTDOOR-REVOLUTION.COM

UNIT 1 BRICK PARK
BRETFIELD COURT
BRETTON STREET INDUSTRIAL ESTATE
DEWSBURY
WEST YORKSHIRE
WF12 9BY

IMPORTANT: PLEASE CHECK YOUR EQUIPMENT

1 X FLYSHEET (OR OUTER)

4 x STEEL POLES

1 x INNER TENT

1 X BAG OF PEGS

1 x REPAIR KIT

1 x HOLDALL

We highly recommend that you insure your tent against storm damage or accidental damage, as the warranty does not cover such eventualities. The manufacturer IS NOT liable for any damage caused to the tent or its contents because of misuse, incorrect pitching or extreme weather.
(Full warranty details are at the back of this booklet)

NOTES

This image shows a single sheet of white paper with horizontal black ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

THE WARRANTY (CONTINUED...)

- Flaws in the fabric caused by excessive use
- Imperfections and pulls in mesh doors due to wear and tear
- Water ingress through fabric as a result of UV degradation
- Water ingress through seams caused by excessive abrasion of seams or taped seam
- Broken zips caused by over tensioning, forcing or snagging
- Over tensioned/stretched seams coming apart
- Buckles subjected to undue force or abrasion
- Lost/popped out eyelets
- Broken holdalls
- Pole breakages or tube punctures (where applicable)
- Collateral damage from a pole breakage
- UV degradation
- Condensation, (a natural occurrence, exacerbated by insufficient ventilation opening)
- Consequential damage/loss to property/belongings (either inside or outside of the product) or shortening of holidays

Outdoor Revolution work very closely with our retail partners to manage all warranty repairs/issues:

****Please contact your retailer immediately (even if purchased online) if you feel your Outdoor Revolution product has a genuine warranty issue. The retailer, in turn will raise the issue with ourselves and we will action; with the retailer, according to the nature of the claim.**

****Please ensure the product is clean and dry and as close to its original condition as possible before sending back for checking.**

****Wet or dirty products will not be accepted back for checking/warranty claims.**

**** It is important to note that the Sales Contract between yourself and the retailer you purchased the Outdoor Revolution product from, remains valid throughout any warranty claim and your statutory rights are not affected.**

IMPORTANT INFORMATION

- ◆ Please do not leave for your holiday without fully erecting and checking you have all the contents for your tent. If you are missing anything please contact your retailer immediately before use.
- ◆ Please also note that manmade fabrics are prone to condensation when the warm air and moisture inside the tent comes into contact with the colder outside of the tent fabric. You may also experience condensation in the tube sleeves. This is a perfectly natural occurrence and should not be confused with leaking. Ensure all Vortex Vents are open whenever possible to help combat condensation.
- ◆ Ideally erect your tent for some period before use - allowing it to weather. 'Weathering' can take a few uses of the tent before it is fully effective. Seam sealant can be used to solve any persistent weeps. This process is completely normal.
- ◆ Make sure before erecting, that you site the tent on clear level ground with no sharp objects underneath and that all the zips are fully closed. (We recommend laying a groundsheet down to keep the tent dry and clean).
- ◆ We suggest conducting a trial run of your tent to familiarise yourself with the set up and use of the tent. If you have any issues relating to pitching your tent please contact your dealer for help before going on holiday.
- ◆ Please note this tent is designed as a 'touring' tent and not for permanent pitch.
- ◆ After use always dry and air the tent before packing away to prevent mildew or mould.
- ◆ Any dirt or stains can be removed by brushing or gently washing with warm water. DO NOT use detergents as this will destroy the waterproofing on the fabrics.
- ◆ DO NOT cook or smoke in this tent; although the outer fabric is flame retardant treated it will still melt.
- ◆ In the event of damage; please contact your retailer. If for whatever reason you are unable to contact them please email cs@blue-diamond-products.co.uk and our customer service team will be happy to assist.

OPTIONAL ACCESSORIES

- ♦ Stone Protection Footprint - Groundsheet to give additional protection to your awning.
- ♦ Snugrug - Cosy, thermal backed patterned carpet for additional comfort in your awning.

Look at www.outdoor-revolution.com for more information.

OUTDOOR REVOLUTION GUARANTEE

Outdoor Revolution products are designed and produced to the highest manufacturing standards. The best quality fabrics and components available are used for each specific item and a rigorous checking process of finished products is in place.

All finished products are:-

- Checked for and are free of minor defects
- Are fit for the purpose/use that they are intended
- Are of a satisfactory quality

It is important that correct care is taken when opening the product, erecting, using and just as importantly, packing away the product. Following these rules will keep your product in reliable working condition for many years. Failure to adhere to these simple guidelines may cause unnecessary damage to the product (see formal instructions for hints and tips on handling/erecting the product). A repair kit is included in the product to help resolve any minor issues.

THE WARRANTY

The Outdoor Revolution Warranty lasts for 12 months from the original date of purchase (please keep all receipts or copies of any relevant transaction to substantiate the purchase date). The warranty only covers workmanship and fabric/components. Any faults found within 6 months of purchase will be investigated by Outdoor Revolution. Faults found outside of the initial six months of purchase will need to be proven by you the purchaser, in line with current consumer legislation after the short term right to reject has ended.

Retailer will not refund a purchase if no fault is found.

Product warranty must be registered **BEFORE** use via www.outdoor-revolution.com and as soon as possible from the date of purchase.

The manufacturer's warranty does not cover the following:-

- General wear and tear over extended periods of use or seasonal pitching of the product
- Accidental damage caused by but not exclusive to, humans, animals or weather

PACKING AWAY YOUR TENT

- ◆ Zip up all the windows and doors before removing any poles or pegs.
- ◆ Unpeg the guy lines, storm straps and most of the pegs around the tent leaving the four corners pegged out.
- ◆ Remove each of the four poles in turn.
- ◆ Unpeg all the remaining pegs from around the product.

Let the tent collapse on itself and push as much air out of the tent as possible.

Fold the tent in on itself to make it a rectangular shape instead of its original round shape to make it easier to roll.

Then fold the tent in on itself to make a long sausage shape. Measure the width of the tent sausage against the bag to make sure it will fit in to the bag. Start rolling the tent up.

Roll the rolled tent on to the bag and pull the sides up round it. Finally, zip up the bag and pop the poles on top.

PLEASE READ THE INSTRUCTIONS CAREFULLY

TIP: Refer to the photograph to help when pitching your **Crossover**

1. Spread the flysheet out on the ground where you want to pitch it.

2. Peg down all the pegging points on the tents groundsheet in the position you wish to pitch the tent.

3. Locate the two poles and erect these. With someone holding the front canopy of the tent up climb inside with the pole and put the end of the pole in the roof where there is the reinforced material. Stand the pole up and place the other end of the reinforcement on the groundsheet.

4. Next, locate the second pole and repeat this process further forward towards the front of the tent on the other reinforcements.

5. Next locate the two front canopy poles and erect these. Thread the first one through the sleeve nearest to the main body of the tent and put the pins in the bottom of the poles.

6. Thread the second one through the outer sleeve and put the pins in the bottom of the poles. Peg the canopy out.

7. Peg out and tension the front of the tent. Use the adjustable pegging straps to tension the tent as you desire. Make sure you don't over tension the fabric.

9. Peg out all the remaining pegging points and guy lines starting from one corner and work your way around the tent.

10. Inside, if the inner tent isn't already clipped in. Lay the inner tent in the space with the door at the front. Match the coloured elastic to the coloured loop and work your way round clipping the inner tent in.

11. Next, put your sleeping equipment inside the inner tent.

12. Please make sure in heavier weather you use all the guy lines and we suggest using storm straps to hold the tent in place.
